

Excellence ... again

AS THE SOWING, THE REAPING

Next in the long tradition of distinguished speakers at Principia College ...

Vicente Fox

... is the visionary leader and former President of Mexico. Fox played a vital role in democratizing Mexico by breaking the continuous 70-year rule of the Institutional Revolutionary Party (PRI) when he was elected in 2000. While president, he introduced reforms and strengthened the economy, controlling inflation and reducing unemployment. An important voice on the contemporary geopolitical landscape, Fox will speak on the "Revolution of Hope."

Principia College regularly hosts speakers and performers from around the world—authors, actors, human rights activists, musicians, and dignitaries. Here's a sampling of those who've appeared at the College over the years:
